PM Kakar dispels doubts about election on Feb 8

ISLAMABAD (APP): Prime Minister Anwaar-ul-Haq Kakar Thursday said there should be no doubt about polls on February 8 as the election process had started with the candidates filing their nomination papers and the political parties busy in building narratives to attract voters.

In an interview with a private television channel, he said it was a constitutional requirement to hold elections which would be held on February 8 after which a new elected government would be formed.

To a question, he said the government would provide security to political leaders, including the three-time prime minister Nawaz Sharif, Maulana Fazlur Rehman, Maryam Nawaz, Imran Khan, Bilawal Bhutto Zardari and others.

Prominent political leaders could be targeted and the government would be blamed for any lapse in their security, he continued.

"It is the responsibility of the government to provide security to political leaders and voters of Pakistan,"

He said the caretaker government would fulfill its responsibility during the holding of elections.

It would be illegal to stop the Pakistan Tehreek-e-Insaf (PTI) from taking part in the elections, he said and

clarified there was no policy to stop the PTI from organizing public meetings.

On the election day, the candidates of PTI would be in the field and the voters would be voting for them, he commented.

He said those who were involved in the incidents of May 9 were facing the law of the land. He was of the view that those involved in the May 9 incidents should not be public office-holders.

He said the Election Commission should look into complaints made by political parties about maladministration.

To a question, he said overall political circumstances triggered the actions against the PTI and lessons were learnt by the State.

He said, "It is not our job to tell overseas Pakistanis which political party they should support." However, the people should vote for a party which had an agenda for the economic revival of Pakistan, he opined. "I will vote for a party which has an agenda to revive the economy," he asserted.

The prime minister said there was a wave of terrorism in the country and there were forces which wanted to cause disruption in Pakistan and the government would make all efforts to protect the lives of people.

PTI loses electoral symbol 'bat' as ECP voids intra-party polls

Barrister Gohar announces to knock at court's doors against ECP decision to take away 'bat' electoral symbol

ISLAMABAD (INP): The Election Commission of Pakistan (ECP) on Friday declared the intra-party elections conducted by the Pakistan Tehreek-e-Insaf (PTI) null and void, withdrawing the party's electoral symbol - bat.

The electoral watchdog ruled that the party did not hold the elections in line with its constitution, the Election Act, 2017, and the Election Rules, 2017, and was thus ineligible to obtain the election symbol of 'bat'.

A five-member bench, led by Chief Election Commissioner Sikandar Sultan Raja, gave the decision on the petitions challenging PTI's intra-party elections.

Other members of the bench included ECP members Nisar Ahmed Durrani,

Shah Muhammad Jatoi, Babar Hassan Bhrwana and Justice Iqbal Karamullah Khan.

The reserved verdict was announced a day after the Peshawar High Court directed the ECP to decide the petitions filed against PTI's intra-party elections in accordance with the law.

In its decision, the ECP observed that "the PTI did not comply with the Commission's directions rendered therein order dated 23rd November, 2023 and failed to hold intra-party election in accordance with PTI prevailing Constitution, 2019 and Election Act, 2017, and Election Rules, 2017. Therefore the certificate dated 4th December, 2023 and Form-65 filed by the alleged Chairman, is hereby regretted and rejected ac-

cordingly. The provisions of Section 215 of the Election Act, 2017 are hereby invoked and PTI is hereby declared ineligible to obtain the Election Symbol, for which they have applied for".

It may be noted that the ECP rendered the intra-party polls as invalidated hence, Barrister Gohar Ali Khan, who became the party's chairman, would no longer be the party's top head.

The development came shortly after the PTI held discussions with ECP authorities, prompted by the Supreme Court's directive for the ECP to allow PTI's reservations regarding lack of a level-playing field. As per the PTI, the ECP assured its delegates that it would redress their grievances.

More than 20 countries now part of US-led Red Sea coalition, Pentagon says

Monitoring Desk
WASHINGTON: A total of more than 20 countries have agreed to participate in the new US-led coalition safeguarding commercial traffic in the Red Sea from attacks by Yemen's Houthi movement as more nations join the effort, the Pentagon said on Thursday.

Still, the new Pentagon total would suggest that at least eight of the countries who have signed up have also declined to be publicly named, in a sign of political sensitivities of the operation as regional tensions soar over the Israel-Hamas war.

"We've had over 20 nations now sign on to participate," Major General Patrick Ryder said, noting declarations by Greece and Australia.

"We'll allow other countries, defer to them to talk about their participation."

The United States launched Operation Prosperity Guardian two days ago, saying more than a dozen countries had agreed to participate in an effort that will involve joint patrols in Red Sea waters near Yemen.

Each country will contribute what they can, Ryder said, dubbing it a "coalition of the willing."

"In some cases that will include vessels. In other cases, it could include staff or other types of support," he told a news briefing.

The crisis in the Red Sea has grown out of the war between Israel and Gaza's ruling Palestinian Islamist group Hamas.

The war began on Oct. 7 when Hamas fighters stormed across the Gaza border into southern Israel, where Israeli authorities say the militants killed about 1,200 mostly civilian Israelis and foreigners.

Israel's retaliatory bombardment and invasion of Gaza, which Israeli officials state is aimed at wiping out Hamas, has killed nearly 20,000 Palestinians, according to health officials in the densely populated, coastal enclave.

Diplomatic ties with US could break down over asset seizures

Monitoring Desk
MOSCOW: Russia may cut diplomatic ties with the United States if Washington confiscates Russian assets frozen over the Ukrainian war, the Interfax news agency quoted Deputy Foreign Minister Sergei Ryabkov as saying on Friday.

The United States "must not act under an illusion... that Russia is clinging with both hands to diplomatic relations with that country," Ryabkov said.

Russia has described relations with the United States as "below zero" because of U.S. military and financial aid for Ukraine in the war now approaching the end of its second year.

Ryabkov said Russia, which sent forces into Ukraine in February 2022 in what it called a "special military operation", would not be the one to initiate a break in diplomatic ties, but such a rupture could be prompted by a variety of factors.

No functional hospitals left in northern Gaza: WHO

Monitoring Desk
GENEVA: There are no longer any functional hospitals in the north of the Gaza Strip, the World Health Organisation (WHO) said Thursday, describing "unbearable" scenes of largely abandoned patients begging for food and water.

The UN health agency said it had led missions to two badly damaged hospitals, Al Shifa and Al Ahli, in the north of the Palestinian territory on Wednesday.

"Our staff are running out of words to describe the beyond catastrophic situation facing remaining patients and health workers," said Richard Peepers-korn, the WHO representative for the occupied Palestinian territory.

His comment came amid increasingly frantic diplomatic efforts to secure a pause in the war that Hamas says has already claimed 20,000 lives in Gaza, 70 per cent of them women and children.

Czech police seek motive in Prague mass shooting that killed 15

Monitoring Desk
PRAGUE: Czech authorities sought a motive on Friday in a student's gun attack that killed 15 people at a Prague university, where tearful mourners have left a sea of candles to grieve for the victims.

The gunfire on Thursday at the Charles University's Faculty of Arts sparked frantic scenes of students running from the attack that was the Czech Republic's worst shooting in decades.

A makeshift memorial of hundreds of candles flickered outside the university on Friday as police pursued the investigation at the campus in Prague's historic centre.

Japan prepares for missile shipments after easing arms export restrictions

Monitoring Desk
TOKYO: Japan said on Friday it would prepare to ship Patriot air defence missiles to the United States after revising its arms export guidelines earlier that day, in the pacifist nation's first major overhaul of such export curbs in nine years. The announcement comes as Japan, which had long adopted a stance of not allowing exports of deadly weapons, seeks to boost its defence industry amid an increasingly tense security environment in the Indo-Pacific.

"This holds significant meaning in terms of further strengthening the Japan-U.S. alliance. It will contribute not only to Japan's security but also the peace and stability of the wider Indo-Pacific region," Chief Cabinet Secretary Yoshimasa Hayashi said following the announcement.

Although Japan's new export controls still prevent it from shipping weapons to countries that are at war, it may indirectly benefit Ukraine in its war with Russia as it gives the United States extra capacity.

North Korea's Kim warns of 'nuclear attack' if 'provoked'

Monitoring Desk
SEOUL: North Korean leader Kim Jong Un warned Pyongyang will not hesitate to launch a nuclear attack if "provoked with nukes", state media said on Thursday, while Seoul and its allies called for "dialogue without preconditions".

Kim's warning follows a meeting between South Korea and the United States last week in Washington, where they discussed nuclear deterrence in the event of conflict with the North.

The meeting's agenda included "nuclear and strategic planning", and the allies reiterated that any nuclear attack by Pyongyang on the United States or South Korea would result in the end of the North Korean regime.

But Kim told his military's missile bureau "not to hesitate (launching) even a nuclear attack when the enemy provokes it with nukes," Pyongyang's official Korean Central News Agency said.

Washington, Seoul and Tokyo released a statement shortly afterwards, urging the nuclear-armed country to "stop conducting further provocations and accept our call for engaging in substantive dialogue without preconditions".

Monitoring Desk
WASHINGTON: The top U.S. military officer held a virtual meeting with his Chinese counterpart on Thursday, the Pentagon said, in the first such conversation in over a year amid hopes by U.S. officials that it could lead to a broader restoration of ties between the two militaries.

The video teleconference followed an agreement between U.S. President Joe Biden and Chinese President Xi Jinping last month to resume military-to-military ties severed by Beijing after then-House of Representatives Speaker Nancy Pelosi visited self-ruled Taiwan in August 2022.

U.S. Air Force General Charles Q.
